

Flying Colours: Core Balanced

Portfolio Date: 31/03/2025

The Flying Colours Core Balanced model portfolio aims to achieve a balance between risk and return and investors should expect some short term volatility. It invests predominantly into equities, with an equity exposure typically of 60%. Alongside a core holding of passive or index-tracking funds that helps keep costs to a minimum, the portfolio may at times include carefully selected investments designed to improve returns. The Core portfolio range could be the ideal choice for investors interested in a simple and cost-effective investment portfolio.

Notes on Fund Charges

The costs shown in the table above are charged by the fund management companies that manage the funds. All investors in the funds will pay these charges. Flying Colours receives no income or rebates on these charges. Further detail on each of the charges follows.

Estimated Ongoing Cost

All funds quote a KIID Ongoing Charge, and this charge is normally shown on fund factsheets. Some funds incur extra costs in the day to day management of their funds. However, generally funds don't publish these additional costs. For transparency, we publish what is called the Estimated Ongoing Cost, which is the normal KIID Ongoing Charge plus these other "hidden" charges.

For most of the funds we invest into, the ongoing cost is the same as the KIID Ongoing Charge. For the portfolio as a whole, the Estimated Ongoing Cost typically works out between 0.0% - 0.02% higher than the KIID Ongoing Charge. So the effect is small, but we believe it is important our investors understand how the fund managers charge.

Estimated Transaction Costs

This is another set of charges incurred by the funds, and it shows what the impact of transaction costs is on each fund's unit price. There are many different ways that funds can calculate this figure and, confusingly, some calculation methods can lead to a negative charge (i.e. transaction costs add value to the fund). Only the fund management companies know the detail behind the transaction costs calculations, and we publish the figures submitted by them.
